To Whom It May Concern:

I have written to comment on the subject of irradiation of foods. Specifically, I would like to comment on the topics of:

- 1) If the current radiation disclosure statement should be revised, and
- 2) If this requirement should expire at some future point.

As a consumer and a parent, I will always want every product that has been irradiated, or contains an irradiated ingredient, conspicuously labeled as "irradiated" or with the radura logo – and with **no expiration for this consumer warning**.

Anything less would be inaccurate, misleading and irresponsible.

I strongly urge the FDA to comply with these requests.

Sincerely,

David A. Brunetti
